Dear Lenny;

Well, as of today we are on the campaign trail. By the 20th of February when the voters go to the polls I will need a new pair of mocassins.

As requested, enclosed is the Report of the MacKenzie Valley Pipeline Inquiry by Justice Thomas Berger. Mr. Berger recommended a ten year moratorium on Yukon Indian lands which expired in 1987. The ten year moratorium provided more time for the land claims negotiations process. Mr. Berger's statement put a freeze on all development in the Yukon. We value Mr. Berger's statement and recommendations. It has been very helpful and will be in the future.

I am with you and everyone in Sonoma wherever we walk. Take good care and quit smoking!!!

Lots of love,

*Norma*
